

Mastering Linux

Example Code Package

User's Guide

This example code package contains all code examples in the textbook.

The package contains the following files and directories

```
ex01/  ex03/  ex05/  ex07/  ex09/  ex11/  guide.pdf
ex02/  ex04/  ex06/  ex08/  ex10/  ex12/  license.txt
```

There is one example folder for each chapter in the book. You can find the descriptions for the examples in the textbook with cross-references to file locations.

The example code package is distributed under license from SOFPOWER and is for the personal use of purchasers of the book. Any other use, copying, or resale, without written permission from SOFPOWER, is prohibited.
